

SUBSEA COMPENSATOR 45 LITER

The **45 litre Subsea Compensator** is a general-purpose compensator for underwater hydraulic systems. It provides a given volume and pressure for oil-filled subsea equipment. The compensator consists of a large bellow that is compressed using stainless steel springs. The recommended direction for installation is vertical.

SPECIFICATIONS

Type	Subsea Compensator
Model	45 liter
Part Number	6425-0025
Material	POM, stainless steel, aluminium and rubber
Depth rating	3000 m
Dimensions (LxW)	1030 mm x 649 mm
Weight Air	127 kg
Weight Water	98 kg
Pressure empty/full	0,05 bar / 0,5 bar
Mechanical interface	Fastening points on bottom/top plates
Electrical interface	Customer specific
Oil level sensor	Optional
