

AX/VX GASKET TOOL HYDRAULIC

The GNT Solutions AS **Hydraulic AX-VX Gasket Tool** is designed to give the operator an effective and simple method of removing/installing an AX- or VX-Gasket by using a ROV. A spring-loaded failsafe assembly, together with the lower locking plate in the sandwich assembly ensures that the AX- or VX-Gasket cannot be lost/dropped out of the tool by accident. The tool must be hydraulically operated to unlock and release the gasket.

SPECIFICATIONS

Type	AX/VX Gasket Tool
Model	AX/VX Tool Hydraulic
Part number	GNT-1064372
Material	316L, POM, PEHD
Height with handle	330 mm
Diameter	Ø550
Connections	2 x ¼" hoses
Operations	Hydraulic operated
Pressure	75 – 207 bar
Req. min flow	10 LPM
Weight in air	16,5 kg
Weight in water	4 kg
Number of hydraulic connections	2 hoses(one function)
